VALUE ADDED SERVICES

Performance Machine offers the option to have matching discs and pulleys mounted on PM wheels directly from the factory at no charge. Discs and pulleys are mounted by PM technicians to ensure proper clocking and torque specifications. These value added services remove the hassle and the liability for our customers.

LIFETIME LIMITED CHROME WARRANTY

'Quality Chrome' is what you get with every PM chrome product. Our secret is preparation. We send each raw part to our in house polishing department, creating a mirror like finish before the chrome is even laid on. This process allows PM to create ultra smooth and durable chrome plated parts. A lustrous finish is easy to maintain with proper maintenance and care. We offer a lifetime limited warranty for all our chrome products. PRODUCT REGISTRATION IS REQUIRED.

TERMS & POLICIES

DEALER QUALIFICATIONS:

In order to obtain dealer prices and service, Performance Machine must have an approved Dealer Application on file with photocopies of your business license, resale tax permit, and photos of the inside and outside of your shop. Phone number must be listed in the phone directory under your company name. Authorized PM dealers advertising less than PM MSRP are subject to potential loss of dealership status. Limitations on Sales: The Dealer shall only sell the Brand at the Dealer's retail store, Dealer's mail order catalog, Dealer's Internet website, or at retail booths operated by the Dealer at motorcycle, ATV or UTV events such as races, rallies and shows. Selling or listing the Brand on third party sites (i.e. Amazon, eBay, Walmart, etc.) is strictly prohibited.

TERMS:

All orders are shipped COD cashier's check or money order unless previously approved for company check, American Express, Discover, Visa or MasterCard.

CHECK APPROVAL POLICY:

In order to qualify for company check acceptance, the following conditions must be met:

1. A letter of application must be submitted to PERFORMANCE MACHINE stating bank name, address, business account number and three motorcycle related business references that accept your company check, and a signed authorization for PERFORMANCE MACHINE to acquire bank information.
2. Must be in business and with the same bank for a minimum of 1 year.
3. Must have a minimum of 2 orders already delivered and paid for.
4. PERFORMANCE MACHINE must approve application for company check acceptance.
5. Any dealers who have a check returned for NSF or closed account will be immediately put on cashiers check only status.

SHIPPING:

All orders within the continental U.S. will be shipped via Ground freight unless otherwise requested by the customer. All orders should be inspected upon receipt for accuracy and claims made within 7 days. All damage claims must be made within 7 days of receipt of parts.

FOREIGN SHIPMENTS:

All foreign shipments must be paid in full and will be shipped FREIGHT COLLECT when possible, or include in prepayment the cost of shipping. PM will not be responsible for customs duties or charges when importing parts into other countries. Call or email for estimate of shipping costs.

SPECIAL ORDERS:

Special orders will be charged an additional fee and may require prepayment. Special ordered parts will be Non Refundable once the order has been placed.

RETURNS:

No returns will be accepted without prior authorization by calling or writing Performance Machine to request an RMA number. Parts will only be considered for return if the request is made within 30 days from the date of invoice. A handling fee will be charged to restock parts unless otherwise specified. RMAs received more than 30 days after issue date will be ineligible for return unless otherwise specified. In order for products to be eligible for return or exchange, they must be received in proper condition depending upon the nature of the RMA. The customer is responsible for ensuring proper packaging to maintain the condition of the parts when returning to PM. Parts received damaged will not be eligible and will be returned to customer. Performance Machine reserves the right to refuse to issue an RMA at our discretion.

REFUSED PACKAGES:

Performance Machine is not responsible for freight charges due to refused shipment from dealers. If a dealer refuses a shipment they are responsible for any freight expenses incurred. Refused packages will be charged a restocking fee. Should a dealer have more than 2 refused packages their account will be immediately put on hold and may at Performance Machine's discretion be closed.

DAMAGED PARTS CLAIMS:

All parts must be inspected upon receipt. Damage claims must be made within 7 days of receipt of package. Performance Machine will not be responsible for return freight on overseas orders.

PRICES:

ALL PRICES ARE SUBJECT TO CHANGE WITHOUT NOTICE.

LIMITED WARRANTY

If your Performance Machine product is defective in material or workmanship and you return it to us within one year from the date of purchase, we will replace it or, at our option, repair it at no charge to you. If we repair the defective part, we may use reconditioned replacement parts or materials. If we replace it, we may replace it with a reconditioned one of the same design. Any product to be considered under a warranty claim must be returned to Performance Machine for quality inspection with original receipt. Upon confirmation that a product is covered under warranty, PM will repair or replace parts as quickly as possible. Warranty is limited to product repair or replacement only.

Product purchased through Drag Specialties or any other distribution company is subject to the terms of the Performance Machine warranty above and as such we will repair or replace product deemed to fall within the warranty terms. Performance Machine does not issue credits or refunds on products purchased directly from Drag Specialties or any other distribution company. Due to climate and exorbitant shipping costs, Performance Machine finishes will not be guaranteed outside the 48 contiguous United States.

CHROME WARRANTY

Standard Two Year Warranty

The chrome finish on your Performance Machine product is of the highest quality, but to ensure its longevity it must be maintained properly. Salt, sand, and humidity are bad for chrome. If you ride the motorcycle in these conditions and do not clean and dry the chrome parts, the life of the chrome will be shortened. Do not use any abrasive cleaners or waxes. Performance Machine reserves the right to determine if the product has been maintained properly and has not been abused. If your Performance Machine chrome product has been maintained properly and has not been abused, you may return it to Performance Machine within two years of the invoice date and if upon inspection it is found to be defective, we will replace it, or at our option repair it.

LIFETIME LIMITED CHROME WARRANTY

Performance Machine offers a Lifetime Limited Warranty on Performance Machine branded products sold within the 48 contiguous United States after February 1st, 2012. The Lifetime Limited Warranty is non-transferable and applies only to the original consumer purchase. The end user must complete the warranty registration process at performancemachine.com/warranty registration within 90 days of the invoice date. In order to file a warranty claim, the consumer must provide the original purchase receipt and the warranty confirmation from Performance Machine generated during the warranty registration process. If warranty claim requirements are not met, the warranty will default to Performance Machine's Standard Chrome Warranty.

BLACK ANO WARRANTY

Two Year Warranty

The black anodize finish on your Performance Machine product is of the highest quality, but to ensure its longevity it must be maintained properly. Exposure to UV rays is bad for black anodized finishes. Do not use any abrasive cleaners or waxes. Performance Machine reserves the right to determine if the product has been maintained properly and has not been abused. If your Performance Machine black anodized product has been maintained properly and has not been abused, you may return it to Performance Machine within two years of the invoice date and if upon inspection it is found to be defective, we will replace it, or at our option repair it.

HOW TO OBTAIN WARRANTY SERVICE

Contact Performance Machine at (714) 523-3000 to obtain authorization to return the part. Send parts to us at the address below, together with a letter describing the problem. You must prepay all shipping costs.

Performance Machine
Warranty Service
13861 Rosecrans Avenue
Santa Fe Springs, CA 90670

WARRANTY EXCLUSIONS

This warranty does not cover any damage to the product caused by accident, misuse, failure to follow installation and operation instructions, misapplication, alteration or attempted unauthorized repair service by anyone other than us. This warranty does not cover wheels used on the street or highway that are designated in our catalog for racing purposes only. In addition, due to the unusual stresses placed on all parts used on the race track, Performance Machine will warranty at their discretion any parts used for racing purposes.

LIMITATIONS OF WARRANTY

Repair or replacement of the product by us is your sole and exclusive remedy. Implied warranties, including those of fitness for a particular purpose and merchantability, are limited in duration to the one (1) year term of this express warranty. We will not be responsible for incidental or consequential damages. There are no express warranties which extend beyond those set forth in this document. All warranties are non-transferable and are limited to the original end user of the product. Warranty period is based on the invoice date of the product.

STATE LAW RIGHTS

Some states do not allow the exclusion or the limitation of incidental or consequential damages or a limitation of the duration of implied warranties so some of the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights and you may also have other rights which may vary from state to state.

M.A.P. POLICY

MAP POLICY

PERFORMANCE MACHINE | MINIMUM ADVERTISED PRICING POLICY

In order to preserve its reputation for providing customers with high value products and strong after sales, support and to further enhance the Performance Machine brand image and its competitiveness in the marketplace, Performance Machine is unilaterally instituting a policy of minimum advertised price standards for Performance Machine products. This Minimum Advertised Pricing Policy ("MAP Policy") will apply to dealers and retailers, including catalogs and internet retailers (collectively, "Resellers"), who resell Performance Machine products to end users located in the United States. Performance Machine greatly values the efforts of all Resellers to distribute Performance Machine products and support our customers. This MAP Policy is adopted for the benefit of all Resellers and will be uniformly enforced.

This MAP Policy shall work under the following guidelines:

1. Will, from time to time, publish a Schedule of Manufacturer's Suggested Retail Prices ("MSRP Schedule") on its internet website, which may be amended or adjusted by Performance Machine at any time in its sole discretion. The MSRP Schedule will identify the effective date, the products and the Manufacturer's Suggested Retail Price ("MSRP") for those products. Each advertisement of a product identified in the MSRP Schedule below the MSRP will be a violation of this MAP Policy. Performance Machines products not specifically identified in the MSRP Schedule are not subject to this MAP Policy.
2. This MAP Policy applies to all advertisements of Performance Machine products listed on the MSRP Schedule in any and all media, including, but not limited to, flyers, posters, coupons, mailers, inserts, newspapers, magazines, catalogs, mail order catalogs, e-mail newsletters, e-mail solicitations, internet or similar advertising. This MAP Policy is not applicable to any in-store advertising that is displayed only in the store and is not distributed to any customer(s).
3. The inclusion in advertising of free or discounted products (whether made by Performance Machine or another manufacturer) with a product covered by this MAP Policy is prohibited. All packages (i.e., those that include a combination sale of both products covered in the MSRP Schedule and products not covered under this Policy) must be advertised at the cumulative MSRP of all the products included in the package.
4. A visible strikeout, deletion or alteration of any price in any Internet advertising is strictly prohibited. It is a violation of this MAP Policy to advertise that a customer may "call for price" or "email for price", or "add to cart for price", or to use similar language.
5. This MAP Policy applies only to advertised prices and does not apply to the price at which Performance Machine products are actually sold or offered for sale to an individual consumer within Reseller's retail location or over the telephone. Resellers remain free to sell these products at any prices they choose under these circumstances.
6. This MAP Policy does not establish maximum advertised prices. All Resellers may offer Performance Machine products at any price in excess of the MSRP.
7. Internet auctions may not display or have reserved bid or other acceptable prices below the MSRP. Best Offer auctions are not allowed.
8. Performance Machine must be specifically excluded from any type of advertised storewide sale or promotion if the promotion is perceived to discount Performance Machine below MSRP. Advertised coupons, dealer bucks, etc. are allowed as long as they are for future storewide purchases only. Dealers must not include statements in advertising or options related to Performance Machine, which may lead consumers to perceive the offer of prices below MSRP.
9. Pricing listed on an Internet site is considered an "advertised price" and must adhere to this MAP Policy. Once the pricing is associated with the intent to purchase (added to a secure, not public shopping cart or order), the price becomes the selling price and is not bound by this MAP Policy. Discounts applied at the checkout to the entire order based on a customer's purchasing history with the Reseller, such as discounts for "frequent shoppers", do not violate this MAP Policy.

10. This MAP Policy is solely within Performance Machine discretion and authority acting through the duly authorized managers of Performance Machine. No employee or sales representative of Performance Machine has any authority to discuss, modify or grant exceptions to this MAP Policy. Any representation or action by any employee, sales representative or persons not specifically authorized to discuss, modify or grant exceptions to this MAP Policy under this paragraph is unauthorized and invalid. All questions about this MAP Policy should be in writing and directed via U.S. Mail to MAP Policy Administrator, Performance Machine, 13861 Rosecrans Avenue, Santa Fe Springs, CA 90670 or via e-mail to mapadministrator@performancemachine.com who will respond only in writing. No oral communications about this MAP Policy are authorized. The MAP Policy Administrator shall be solely responsible for determining whether a violation of the policy has occurred, communicating decisions to Resellers regarding the policy and receiving any communications regarding sanctions imposed under this MAP Policy. Any action taken by Performance Machine under this MAP Policy shall be without liability to Performance Machine.

11. From time to time, Performance Machine may choose to offer special promotions on certain products. In such an event, we reserve the right to modify or suspend this MAP Policy in whole or in part by notifying all Resellers of the duration and nature of the change. Performance Machine further reserves the right to adjust the MSRP with respect to all or certain products at its sole discretion. Such changes shall apply equally to all Resellers.

12. Intentional and/or repeated failure to abide by this MAP Policy will result in sanctions unilaterally imposed by Performance Machine. Performance Machine does not intend to do business with Resellers who degrade the image of Performance Machine and its products. Performance Machine need not provide prior notice or issue warning before taking any action under this MAP Policy.

13. Distributors of Performance Machine products will supply a copy of this MAP Policy to any new or existing reseller for their records.

14. The terms of this MAP Policy are confidential and should not be disclosed to other parties.

POLICY VIOLATIONS:

Failure to abide by this Policy may result in penalties, including those specifically set forth below, as well as being terminated as an authorized Performance Machine dealer.

FIRST VIOLATION:

Dealer will receive a written notification informing the Dealer that it will be subject to a two (2) day prohibition from purchasing Performance Machine products. Corrective action must be implemented within 48 hours for electronic advertisements (email/internet sites) and the relevant production cycle for print and other advertisements, but no later than thirty days. If corrective action is not implemented within the aforementioned timeframe, the two-day prohibition will be extended and Dealer's rights to use Performance Machine trademarks and copyrighted material will be forfeited and not permitted until reinstated at the sole discretion of Performance Machine and/or its authorized agent on its behalf.

SECOND VIOLATION:

Dealer will receive a written notification informing the Dealer that it will be subject to a thirty-(30) day prohibition from purchasing Performance Machine products, and the dealer's rights to use Performance Machine trademarks and copyrighted material will be forfeited and not permitted during this period. If corrective action is not implemented within the timeframe delineated above, the thirty-(30) day prohibition can be extended and Dealer's rights to use Performance Machine trademarks and copyrighted material will be forfeited and not permitted until reinstated at the sole discretion of Performance Machine and/or its authorized agent on its behalf. Violations after 365 days from the first violation will be considered a new first violation.

THIRD VIOLATION:

Dealer will receive a written notification informing the Dealer that it will be subject to a ninety-(90) day prohibition from purchasing Performance Machine products, and the dealer's rights to use Performance Machine trademarks and copyrighted material will be forfeited and not permitted during this period. If corrective action is not implemented within the timeframe delineated above, the ninety-(90) day prohibition can be extended and Dealer's rights to use Performance Machine trademarks and copyrighted material will be forfeited and not permitted until reinstated at the sole discretion of Performance Machine and/or its authorized agent on its behalf. Violations after 180 days from the first violation will be considered a new first violation.

FOURTH VIOLATION:

Dealer will receive a written notification informing the Dealer that it will be subject to a one (1) year prohibition from purchasing Performance Machine products, and the dealer's rights to use Performance Machine trademarks and copyrighted material will be forfeited and not permitted during this period. If corrective action is not implemented within the timeframe delineated above, the one (1) year prohibition can be extended and Dealer's rights to use Performance Machine trademarks and copyrighted material will be forfeited and not permitted until reinstated at the sole discretion of Performance Machine and/or its authorized agent on its behalf. Violations after 180 days from the first violation will be considered a new first violation.

Notwithstanding the above, based on the sole discretion of Performance Machine and/or its authorized agent, a Dealer who demonstrates multiple first violations of this policy may be subject to a permanent prohibition from purchasing Performance Machine and the Dealer's rights to use Performance Machine trademarks and copyrighted material will be forfeited and not permitted.

RACE WEIGHT WHEELS

The ultimate high performance wheels machined from forged aluminum, featuring lightweight agility. The rim lip is back cut to reduce mass at the outer edges of the wheel for decreased rotational inertia and a reduction in unsprung weight. Equipped with PM's Race Weight Series hubs, where all the excess material has been machined away for improved weight reduction.

NOTE: NIVIS, ASSAULT and REVOLUTION wheels come standard with lightweight Race Weight hubs on 2008-2023 Touring Models.

*H-D TPMS bikes must replace PM valve system with H-D stock TPMS sensor valve stem on PM wheels for pre 2019 models.

*2020-Up H-D models with TPMS must purchase the TPMS Sensor Bracket Assembly 0076-2011 to maintain TPMS functionality.

**Available on select wheel designs. Contact customer support for more info.

IMPORTANT: 2014-23 H-D Touring model stock front rotors are not compatible with Standard PM front wheel hubs.

Order PM matching rotors when ordering PM wheels for 2014-23 H-D Touring models.

Performance Machine Contour Series and Image Series wheels are now available in a PHATOUR 180 18"x5.5" front wheel size which allows the use of a 180mm front tire on 2008-UP H-D Touring models. These extra wide front wheels are available for ABS and Non-ABS dual disc H-D Touring models in Contrast Cut Platinum and chrome finishes. Made in the USA.

*Most stock rotors will not work with PM wheels on 2014-UP Touring applications. Order the matching PM Brake Discs for these applications. (SEE PAGE 18)

WHEEL PART NUMBERS

FRONT WHEELS

HOW TO CREATE PART NUMBERS FOR YOUR FRONT PM WHEEL:

Select a Front Wheel ID number that matches your bike.

*Add \$225 Dealer and \$300 Retail for Del Rey wheels only.

*Contour Collection wheels add \$150 Dealer and \$200 Retail for each wheel.

WHEEL ID #				SIZE-DESIGN PART #					FINISH		

NOTE: NIVIS, ASSAULT and REVOLUTION Wheels come standard with lightweight Race Weight Hubs on 2008-2023 Touring Models

*H-D TPMS bikes must replace PM valve system with H-D stock TPMS sensor valve stem on PM wheels for pre 2019 models.

* 2020-up H-D Models with TPMS must purchase TPMS Bracket Assembly 0076-2011 to maintain TPMS functionality. See Page 13.

Add "CH" at end of part number for Chrome.

Add "BMP" at end of part number for Platinum Cut.

Add SMB at the end of part number for Black Ops

Add SMG at the end of part number for Gold Ops

Add B at the end of part number for Black Ano

Add G at the end of part number for Gold Ano

REAR WHEELS

HOW TO CREATE PART NUMBERS FOR YOUR REAR PM WHEEL:

Select a Rear Wheel ID number that matches your bike. If you have changed the rear end of your bike, select the number appropriate for the actual rear end.

*Add \$225 Dealer and \$300 Retail for Del Rey wheels only.

*Contour Collection wheels add \$150 Dealer and \$200 Retail for each wheel.

WHEEL ID #				SIZE-DESIGN PART #					FINISH		

NOTE: NIVIS, ASSAULT and REVOLUTION Wheels come standard with lightweight Race Weight Hubs on 2009-2023 Touring Models

*H-D TPMS bikes must replace PM valve system with H-D stock TPMS sensor valve stem on PM wheels for pre 2019 models.

* 2020-up H-D Models with TPMS must purchase TPMS Bracket Assembly 0076-2011 to maintain TPMS functionality. See Page 13.

Add "CH" at end of part number for Chrome.

Add "BMP" at end of part number for Platinum Cut.

Add SMB at the end of part number for Black Ops

Add SMG at the end of part number for Gold Ops

Add B at the end of part number for Black Ano

Add G at the end of part number for Gold Ano

MATCHING DISCS

(1) OUTER BAND

All PM Discs use a stainless steel outer band. PM utilizes a high grade 420 stainless that will not gall or squeal like lesser quality discs. The newest version PM outer bands can be removed and replaced once worn.

(2) DISC CARRIER

All PM Image Discs use a machined aluminum carrier. 11.5" & 300mm discs are bolted to the outer band and 13" discs are attached via floating elements. The carrier is perfectly matched to its respective wheel and will have a bolt pattern specific to the front or rear.

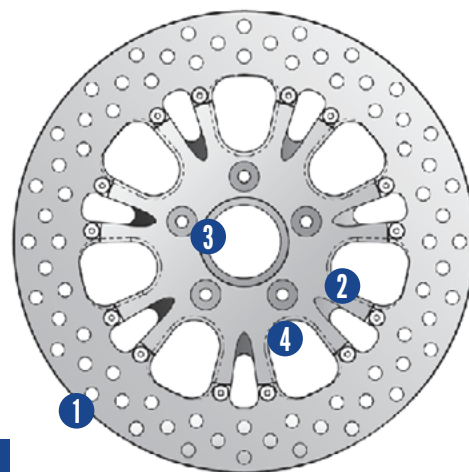

(3) DISC REGISTER

Different years and wheels sizes utilize a variety of register sizes. early model H-D's to 1999 have a 1.985" I.D., 2000 and newer use a 2.22" I.D.

(4) BOLT PATTERN

All front Image discs are drilled for standard H-D bolt pattern. 3 1/4" x 5 bolt x 5/16."

All rear Image discs are drilled for H-D bolt pattern. 3 1/4" x 5 bolt x 3/8."

HOW TO ORDER YOUR PM IMAGE SERIES DISCS:

Always specify applications for front or rear when ordering. For dual disc fronts, order one right and one left. For most single disc fronts, order one left. For rear Big Twin, order one right. Springer applications must use PM Button Head Torx Bolts.

PM Image Series Discs WILL NOT work with stock H-D wheels or 1999 & earlier stock H-D calipers.

SPACER REQUIRED FOR PRE-2000 APPLICATIONS

DISC FITMENT INFORMATION

All front discs are drilled for H-D bolt pattern. 3 1/4" x 5 bolt x 5/16" counterbored with 2.22 I.D. A reducer spacer must be ordered separately (0012-02250N-A or 0012-02270N-A) with each disc for use on 1999 and earlier 1.985" disc registers.

All rear discs are drilled for H-D bolt pattern. 3 1/4" x 5 bolt x 3/8" counterbored with 2.22 I.D. A reducer spacer must be ordered separately (0012-02270N-A) with each disc for use on 1999 and earlier 1.985" disc registers.

11.5" discs are solid mounted and centers are available in chrome finish as well as Contrast Cut Platinum, Black Ops and Gold Ops. 13" rotors have silent floaters and centers are available in polished finishes as well as Contrast Cut Platinum, Black Ops and Gold Ops on select designs.

300mm discs are for use on 2008-2023 FLH models front & rear, 2006-2017 VRSC models front & rear, 2006-2017 Dyna models front rotors, 2014-21 Sportster models front rotors, & 2015-23 Softail models front rotors. All 300mm discs are solid mounted and centers are available in chrome, Contrast Cut Platinum, Black Ops, and Gold Ops. Specify your option when ordering.

13" rotors not available for 2018-2023 Softail models.

11.5" rear rotors will NOT work with 2010-12 Sportster XR1200X.

11.5" front rotors will NOT work with front stock caliper on 2008-11 FLSTS.

Rear rotors are NOT available for pre-2000 FLH models.

2008-11 FXCW/C, 2013-17 FXSB, 2018-2023 FLFB, FXBR uses 0133-1523XXXS rear rotors.

11.5" Rear Rotors will not work with 2011-21 Sportsters without upgrading to PM Rear Caliper.

2021-23 Sportsters use 320mm front disc and 260mm rear disc

PM front rotors will not work on FLSTS, FXSTS applications with stock calipers. Stock caliper pads interfere with disc bolts.

Rotor minimum wear thickness 0.180"

NOTE: PM strongly recommends installing new brake pads when installing new PM rotors.

- Made in the USA

Not recommended for touring models that convert to single front disc.

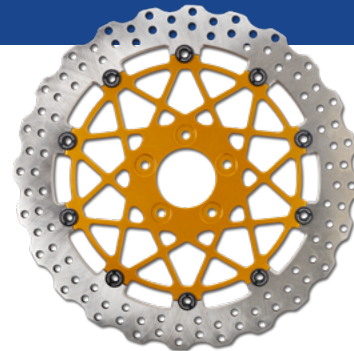

DISCS / HARDWARE

RACE WEIGHT FULL FLOATING DISCS

DOMINATOR

Performance Machine Dominator and Speedstar Race Weight Full Floating Brake Rotors are CNC precision machined to ensure a flat and parallel surface. Hardening the 420 stainless steel outer band to meet RC36 specifications coupled with a full floating design yields a rotor with a higher resistance to deformation. The wave cut braking surface is drilled in a sweep pattern for optimal heat dissipation with a reduction in weight. The inner carrier utilizes the increased strength of 7075-T6 aluminum for a lighter weight design while improving braking performance. The laser engraved PM logo on the floating elements will let everyone know you are serious about performance. PM Race Weight Full Floating Brake Rotors are designed for use with most OEM and aftermarket wheels and calipers.

TOURING REAR RADIAL MOUNT CALIPER BRACKETS AND CALIPERS

RADIAL MOUNT CALIPER BRACKET

Rigidity is key to obtaining a consistent, crisp braking feel. This radial mount caliper bracket replaces the stock rear caliper mount on 2008-2023 H-D Touring applications and is designed to improve your braking feel by providing more rigidity and control. Recommended to be paired with PM Radial Mount calipers for optimal braking performance. Direct bolt on fitment for PM Radial Mount calipers (sold separately) or most 108mm radial mount calipers. Available in Black Ano and Chrome finishes. Compatible with ABS and NON-ABS brake systems.

- CNC machined from billet aluminum
- Performance Machine laser engraved
- Chrome mounting hardware included
- Designed for use with .200" thick discs
- 2008-2021 H-D Touring applications
- Works with PM radial mount caliper or any radial mount caliper with 108mm mounting bolt dimension

SUPREME DOT 4 BRAKE FLUID

Performance Machine Supreme DOT 4 Brake Fluid is designed for use in high-performance braking conditions associated with PM brake systems. This synthetic brake fluid exceeds DOT 4 specifications and meets European DOT 5.1 specifications. Perfect for use in ABS and Non-ABS systems, PM's glycol-ether fluid performs to the same levels as DOT 5 silicone fluids, without the air absorbing issues common with silicone DOT 5 brake fluids.

- High-Performance synthetic glycol-ether fluid
- Maximum thermal stability
- High boiling point to prevent brake fade
- Optimal for ABS systems
- 12 fl. oz. Bottle

*Will not work on 2017-Up Touring, 2018-Up Softail & 2016-2017 FXDLS.

RACE SERIES COVERS

Elevate the style and performance of your Harley-Davidson® Milwaukee-Eight® power plant with the Race Series Cover Line from Performance Machine. The Race Series covers are carefully crafted with the utmost precision to dissipate heat more effectively and provide a race-inspired look. We went beyond simply designing a series of engine covers which only enhance the appearance of the M8 platform. Painstaking hours were spent chasing forms and shapes which transfer heat more efficiently away from the engine & trans to better accommodate increased temperatures synonymous with racing. To complete the look, these covers come in the innovative Black Ops finish with laser engraved logos to provide a durable, yet elegant appearance.

- CNC Machined From Billet Aluminum
- Dissipates Heat More Efficiently Vs. Stock Covers
- Provides a Race-Inspired Look
- Available in Black Ops Finish
- Chrome Hardware & Gasket Included

PHATBAR & RISER KIT

The Performance Machine Phatbar & Riser Kit comes complete with a Fly-By-Wire ready aluminum handlebar and a billet riser set that mount to most H-D models. The bar features an 1.25" clamping area tapered down to 1" to accommodate stock H-D hand controls without any modifications. The bar is made from 7050-T6 aluminum with a 3" rise and slots for internal wiring. The risers feature a 9" rise and are made from 6061-T6 billet aluminum with either internal or external wiring options. Phatbar & Riser Kits are available with Black Ops or Gold Ops risers, include a textured black handlebar, and are compatible with cable throttle and electronic throttle applications.

- Dimensions: 12" tall, 32" wide, 3" pullback, 2.5" rise
- Cable throttle and electronic throttle compatible
- Internal or external wiring options
- Bar diameter: 1.25" tapers to 1"
- CNC machined from billet aluminum
- Black Ops and Gold Ops finishes

CONTOUR LED TURN SIGNAL GRIPS

Performance Machine grips are the perfect finishing touch to any handlebar setup. PM billet aluminum Vision Series Contour grips feature end mounted indicators with extremely bright yellow LED turn signals built in for maximum visibility. Each grip comes with super comfortable Renthal rubber and boasts some impressive details right down the PM logo hit on the tip of each grip. The Vision Series Contour grips are designed to mount to 1" bars for cable throttle and electronic throttle applications with standard and CAN Bus wiring systems. Available in Black Ano and chrome finishes. Sold as a pair.

RACE WEIGHT MID CONTROLS

Performance Machine Mid Controls are the mandatory upgrade for M8 & Twin Cam Touring or M8 Softail models when performance riding is the goal. PM Mid Controls allow for a much more aggressive riding position and provide increased ground clearance for attacking corners. Made from 6061-T6 billet aluminum these mids are strong, lightweight and can be used with a PM rear brake master cylinder or the stock master cylinder. Steel brake linkage and chrome heim joints offer easy brake actuation and the short throw shift lever lets you quickly rip through the gears. The simple bolt-on design means no cutting into the primary cover and no modifications. Stock 1984-2017 H-D style clevis is compatible with PM foot and toe pegs as well as other aftermarket pegs. Available in Black Ops and Gold Ops finishes.

*Will not work with stock Touring exhaust system and some aftermarket exhaust systems.

**Primary Shift Shaft Plug Kit required for M8 Softails converting from stock mid controls. (SEE BELOW)

*Will not work on FLFB,FXBR,FXDRS with 240mm rear tire.

DRIFTER LEVERS / FLOORBOARDS

Take greater control over your Harley Touring model with brake levers and shift levers designed to put you in a position for ergonomic efficiency. Performance Machine's adjustable Drifter Brake Lever and Drifter Shift Lever deliver the distinct performance bagger look without sacrificing comfort. These unique levers offer a one-inch range of adjustability giving riders the option to run at stock length or up to one inch longer than stock. The Drifter Lever profile is aggressive and bolts right up to the factory mounting points to provide the rider the ability to customize lever location for the most desirable performance riding position. Seize command of your cockpit with these adjustable PM levers machined from billet aluminum and available in the famous PM Black Ops finish. The PM Drifter Brake Lever and Drifter Shift Lever were created to match perfectly with the PM Drifter Floorboards. Shift peg and brake pedal platform included.

- 1" Range of Length Adjustment
- Machined from Billet Aluminum
- Mounts in Factory Location
- Stylish Match to PM Drifter Floorboards
- Available in Black Ops Finish

DRIFTER ADJUSTABLE BRAKE LEVER

DESCRIPTION	FINISH	PART NO.
2014-2023 TOURING	BLACK OPS	0032-1128-SMB

DRIFTER ADJUSTABLE SHIFT LEVER

DESCRIPTION	FINISH	PART NO.
1984-2023 TOURING, 2000-2017 FLS/FLST	BLACK OPS	0034-1125-SMB

Take greater control over your Harley-Davidson® with floorboards that will put you in a position for ergonomic efficiency. Performance Machine's Drifter floorboards give that distinct performance look without sacrificing the comfort. The overall profile is short and slim while still bolting up to the factory locations to enhance ground clearance yet retain the convenience of using OEM brackets. Take command of your cockpit with this fine PM accessory that is machined from billet aluminum and coated with a custom Black Ops finish.

- Enhanced Ground Clearance Over Stock
- Machined From Billet Aluminum
- Mounts to Factory Brackets
- Available in Black Ops Finish

REAR AXLE ADJUSTER

Dial in the rear wheel alignment and belt/chain tension on your H-D Touring model with the Performance Machine Axle Adjuster Kit. Proper rear wheel alignment is a crucial detail overlooked by the factory OE cam style adjuster. The PM axle adjuster allows fine tuning via lasered hatch marks and threaded screw style adjustment sliders. Proper belt/chain tension and wheel alignment help extend the longevity of the belt/chain and tire as well as improve handling. Each kit includes the Rear Axle, Axle Adjuster Mounts, Axle Adjustment Sliders, Machined Axle Nut, Safety E-Clips, upper and lower shock mounting bolts, and upper shock mounting spacers. Available in Black Ano or Gold Ano finishes.

- 304 stainless steel 25mm axle
- Billet axle adjuster mount and adjustment slider
- Removable rear stand spools (for use with short 2 into 1 exhaust only)
- Available in Black Ano or Gold Ano finishes
- Shock mounting hardware included
